

● How to assemble

- ① Screw the support into the stand base as shown in Fig. below. (Tighten it until the nut fixed to the support touches the stand base.)
- ② Tighten the nut in a direction of arrow using a wrench as shown in Fig. below. (Use a 13-mm wrench.)

● Handling precautions

- ① Note that, when the gun stand is fitted to a discharge gun (TC-815 series), the trigger switch turns on.
- ② To prevent the danger of an electric shock, turn off power supply before fitting the gun stand.
- ③ Do not use this gun stand except when fitting a discharge gun made by Noise Laboratory Co., Ltd.
- ④ Use the gun stand on a flat and stable place.
- ⑤ When carrying the gun stand with it fitted to a discharge gun, carefully handle it.
